

Emergency Medical  
Technologies

Digital Pursuit has been an outstanding resource for EMT. Rene consistently comes up with the right approach for the right need. He provides both flexibility and structure to make sure that we find a happy harmony between the unannounced rules for good web design and our quest for the right look and feel. He has always responded with speed and quality both in the initial development and ongoing maintenance of our site. Kudos to Digital Pursuit!

Bruce Kusens, CTO
