To Whom It May Concern:

Recently, I received feedback that my website was outdated. I immediately asked Rene Curbelo for help.

Rene walked me through the latest trends in website design. He was receptive to hear my ideas for the site and we worked well together. Rene was careful to design a site that was not only appealing to the eye, but also attractive to the search engines.

The final result was impressive including:

- A new logo that reinforces to clients that my company delivers results
- Movies that make the site come alive
- More content pages (which is good for visitors to the site and also good for the search engines)

Since going live with the site, I received the following feedback from the individual who criticized the old site:

"Good job ... A clear site ... Easy to read, moving pictures, and a nice and professional layout."

Sincerely,

William E. Jantz
