Dear Rene,

I wanted to let you know how grateful I am for your guidance in putting together my website, www.AventuraStressRelief.com. I have had some experience with website creation in the past and was so pleased when I consulted with you. You made the experience easy and created the type of site I needed at the time. I also appreciate you keeping me updated as to new technology and the type of additional options I have available to me.

I have given your name to several colleagues and happily write this letter as a testimony to my satisfaction.

Sincerely,
Stan Hyman, LCSW
